

Stop The Occupation Abroad End the Injustice At Home

The Democrats Lied!

The promises they made before taking office are hollow and hypocritical! The Democrats in congress refuse to cut off the money for the occupations of Iraq and Afghanistan. Instead they are supporting a larger military and expansion of the war in Afghanistan. They refuse to impeach Bush and are likely to allow him to invade Iran.

Just say "No" to the parties that are run by big corporations and by the weapons profiteers!

The Democrats refuse to support single-payer health care and to eliminate the health insurance racket. They refuse to oppose repressive legislation like the so called "Patriot Act." They have allowed the privatization of our parks, schools, and other facilities, including prisons. Our youth, instead of being able to go to college and have a future, are shunted into prisons, the military, and the Wal-Marts of the world. This is unacceptable!

Reject the Parties of the Ruling Class!

The Democrats and Republicans continue to support American imperialism. They are unhappy about the U.S. occupation of Iraq only because we are losing. America's enemies are not the people of Iraq, Afghanistan, Iran, or North Korea. Our enemies are the military-industrial complex and the ruling class politicians. The Iraqi slaughter is for oil, for corporate profits, and for control of the world's resources.

You have a better political choice on the ballot today.

The Peace and Freedom Party was established in the 1960s to oppose the Vietnam War and the repression of people of color. We continue to fight for social justice and peace. Peace and Freedom Party supports labor action. The longshoremen, airline workers, teamsters, railroad workers, and other transportation workers have the power to shut down the war. Our party supports the working people who should run this country.

It is the millions of working people in all of our communities who have the real power to stop the war.

Support the Peace and Freedom Party in 2008

Join the Peace and Freedom Party

support a party that stands with working people and calls for justice for all.
